## Component Mission

The Office of the Director of National Intelligence (ODNI) Deputy Director of Mission Integration (MI) serves as the Director of National Intelligence's (DNI) senior leader for intelligence integration across the IC enterprise. MI is responsible for ensuring customer outcomes by leading advances in collection and analysis that ensure the quality, timeliness, and utility of insights for the nation's decision-makers. Additionally, MI is responsible for increasing expertise and improving tradecraft at all levels through specialization, integration, and collaboration. MI is responsible for the strategic vision, direction, and planning to deliver a more integrated IC reflecting the collective wisdom of our collection and analytic components to advance, in support of the National Intelligence Managers, the Unifying Intelligence Strategies (UIS).

The National Intelligence Council (NIC) consists of senior intelligence and expert analysts supporting the Director of National Intelligence (DNI) in carrying out responsibilities as the head of the Intelligence Community (IC) and as the principal adviser to the President for intelligence matters related to national security. The NIC produces a variety of all-source, IC coordinated intelligence reports, including its flagship product, the National Intelligence Estimate, which represents the Intelligence Community's most authoritative statement on a key national security issue.

## Major Duties and Responsibilities (MDRs)

Direct and oversee an analytic program that produces future and foresight assessments for policy- and decisionmakers on cyber threats and opportunities. Ensure coverage of the full range of state and non-state actors—e.g. cybercriminals—and threats, particularly to critical infrastructure, government, and our military. Also ensure coverage of cyber defenses and opportunities to engage with US partners to mitigate threats.

Orchestrate and direct Community-wide mid- and long-term strategic analysis to support and advance the cyber mission, which includes cybersecurity, cyber operations, and related election security. Serve as subject matter expert and advise the DNI on cyber issues in support of the DNI's role as the principal intelligence adviser to the President.

Develop the analytic portion of the Unified Intelligence Strategy (UIS) in concert with analysts from across the IC and under the operational guidance of the National Intelligence Manager for Cyber. Provide assessments of IC analytic efforts in support of the UIS.

As a member of the National Intelligence Council (NIC), the NIO/Cyber will oversee IC-wide production and coordination of National Intelligence Estimates (NIE) and other community papers (IC Assessments and Sense of the Community Memoranda) concerning cyber issues for the President, DNI, and other senior policy makers. Production will also include regular assessments of critical cyber issues for these consumers.

Lead the IC Cyber Analysis Leadership Council, which consists of senior-level cyber analytic mission leaders and senior analysts, to help guide IC cyber analytic efforts, identify cyber workforce and skill gaps, and build trust in the cyber community.

Liaise and collaborate with senior policy makers in order to articulate substantive intelligence priorities to guide national-level intelligence collection and analysis.

L E A D I N G I N T E L L I G E N C E I N T E G R A T I O N

Develop and sustain a professional network with IC analysts, analytic managers, collection managers, and liaison services to ensure timely and appropriate intelligence support to policy customers regarding cyber issues. Similarly, develop and sustain a network with industry, academic, and other US Government cyber subject matter experts.

Brief senior IC members, policy makers, military decision makers, Members of Congress, and other major stakeholders as necessary on cyber issues.

Keep abreast of the research and production plans on cyber issues of the Community's analytic components, identify redundancies and gaps, identify strategies to address gaps, and advise the DNI on gaps and shortfalls in analytic capabilities across the IC.

Work with the NIMC and other components to help them determine the state of collection on cyber issues, identify gaps, and support integrated Community-wide strategies to mitigate any gaps.

Lead, manage, and direct a professional level staff, evaluate performance, collaborate on goal setting, and provide feedback and guidance regarding personal and professional development opportunities.

## **Mandatory and Educational Requirements**

Substantive expertise in cybersecurity, cyber operations, and cyber threats with expertise in cyber-related analysis and knowledge of the IC's cyber analytic community.

Demonstrated capability to direct interagency, interdisciplinary IC teams against a range of cross-functional and/or regional analytical issues.

Excellent leadership, interpersonal, organizational, and management skills to conceptualize and effectively lead complex analytic projects with limited supervision. Ability to work with and fairly represent the IC when analytic views differ among agencies.

Excellent communication skills, including ability to exert influence with senior leadership and communicate effectively with people at all staff levels, both internal and external to the organization, to give oral presentations and to otherwise represent the NIC in interagency meetings.

Proven critical thinking and writing skills and the ability to prepare and review finished intelligence assessments and other written products with an emphasis on clear organization, concise, and logical presentation.

Expert leadership and managerial capabilities, including the ability to effectively direct taskings, assess and manage performance, and oversee personal and professional development of all levels of personnel.
